

SERIES 1000

Patio Door
Side Lite
Transom

BFRich's Series 1000 sliding glass door, side lite and transom are beautiful, energy efficient and low maintenance. Its fusion welded construction will provide years of trouble-free use. BFRich utilizes state-of-the-art equipment and the finest quality materials to manufacture this beautiful sliding glass door, side lite and transom.

SERIES 1000

Patio Door Side Lite Transom

The BFRich Series 1000 patio door is one of the finest sliding patio doors and features multi-chambered construction for strength and durability. The sliding glass door's miter cut corners are fusion welded to provide superior strength as well as reduce air and water infiltration. The integral nail fin and J-Channel provide ease of installation for new construction applications. The integral nail fin and/or J-channel can be removed for retro-fit installations.

BFRich's Series 1000 patio door features adjustable metal tandem rollers that are self aligning and self lubricating assuring quiet, easy operation. An attractive handle (A) adds beauty and convenience. Our door is made to standard or custom sizes, to meet most any application. It is weathertight, yet glides almost effortlessly. Matching stationary side lites in three sizes or custom sized transoms allow for a variety of sizing opportunities for patio enclosures or replacing old patio doors that have custom openings. There is no need for scraping, puttying or painting... ever. Our rigid vinyl won't flake, rust, rot, peel or blister. Each door is backed by our Limited Lifetime Warranty.

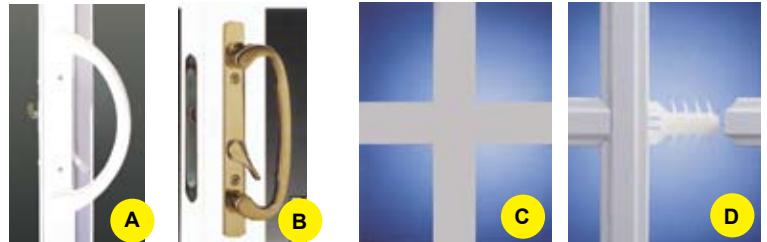

The Series 1000 sliding patio door, side lite or transom will add lasting beauty and value to your home.
